

MATER-BI

# GROM: MATER-BI FROM THE FARM TO THE ICE CREAM PARLOUR

## MATER-BI FOR FOODSERVICE

MATER-BI is a family of fully **biodegradable and compostable** bioplastics which use renewable resources to provide a solution with low environmental impact and to solve specific environmental problems in various sectors, such as foodservice, packaging and separate collection of organic waste.

With the latest developments to certain product grades, today the MATER-BI Foodservice line is complete.

Plates, glasses, cutlery, bowls, finger food mini cups, drinking straws, ice cream cups and spoons, lids for cups: a sustainable proposal for an environment friendly policy in various commercial and contract catering contexts.

All products are suitable for food contact and are certified compostable to the UNI EN 13432 standard.

A Grom ice cream parlour

Ice cream cups

Long and short ice cream spoons

MATER-BI mulching film at the Mura Mura farm

Carrier bags for ice cream

## THE FAMOUS TURIN-BASED ICE CREAM MAKERS USE MATER-BI FROM THE FARM TO THE PARLOUR:

mulching film in use at the Mura Mura farm, where fruit for the ice cream is grown
cups for ice cream, water ice and hot chocolate
long and short ice cream spoons
carrier bags for ice cream
MATER-BI liners for separate collection of organic waste

GROM promotes separate organic waste collection in its parlours. [www.grom.it](http://www.grom.it)

MATER-BI is certified as biodegradable and compostable. If disposed of in the wet waste fraction, it is converted into fertile, useful compost. [www.materbi.com](http://www.materbi.com)
