MINITALIA LEOLANDIA

MATER-BI
FOR ITALY'S FIRST ECO-PARK

MATER-BI FOR FOODSERVICE

MATER-BI is a family of fully **biodegradable and compostable** bioplastics which use renewable resources to provide a solution with low environmental impact and to solve specific environmental problems in various sectors, such as foodservice, packaging and separate collection of organic waste.

With the latest developments to certain product grades, today the MATER-BI Foodservice line is complete.

Plates, glasses, cutlery, bowls, finger food mini cups, drinking straws, ice cream cups and spoons, lids for cups: a sustainable proposal for an environment friendly policy in various commercial and contract catering contexts.

All products are suitable for food contact and are certified compostable to the UNI EN 13432 standard.

Organic waste collection bin

MATERIALS USED

Cutlery made of MATER-BI
Coffee cups made of MATER-BI laminated cardboard
Cups made of MATER-BI laminated cardboard
MATER-BI laminated food paper for sandwiches

Minitalia has taken care of every detail of the separate organic waste collection, from identifying the compostable material collection points to its transport to the composting plant.

MATER-BI is certified as biodegradable and compostable. If disposed of in the wet waste fraction, it is converted into fertile, useful compost. www.materbi.com
