MATER-BI

PACKAGING SOLUTIONS

BIODEGRADABLE AND COMPOSTABLE FOR FOOD AND NON-FOOD APPLICATIONS

MATER-BI is a family of fully **biodegradable and compostable** bioplastics which use renewable resources to provide a solution with low environmental impact and to solve specific environmental problems in various sectors, such as foodservice, packaging and the separate collection of organic waste.

MATER-BI FOR PACKAGING

MATER-BI packaging are fully biodegradable and compostable and, as such, can be disposed of together with organic waste in separate collection systems.

MATER-BI can be used to package fresh and dry food as well as non-food products.
All products made of MATER-BI are certified OK COMPOST in accordance with Standard UNI EN 13432 and the European Directive on packaging and packaging waste.

MATER-BI

BIODEGRADABLE AND COMPOSTABLE BIOPLASTIC

THE ORIGINAL

CONTROLLED, INNOVATIVE, GUARANTEED

Non-food packaging

Non-food packaging

Food wrapping paper

Thermoformed trays for meat/gourmet food

Packaging for pulses

Butter wrappers

Extruded tubular netting

Cardboard trays

Bags for potatoes/carrots

STRONG, VERSATILE AND COMPOSTABLE

Fourth generation **MATER-BI** is the best solution for biodegradable and compostable packaging. It can have a traditional look, i.e. milky white, or transparent, and adapts to all technical and commercial requirements for strong packaging, whether rigid or flexible.

MORE "BIOBASED" WITH THE 4TH GENERATION

Fourth generation **MATER-BI** contains a greater proportion of renewable raw materials. It has even higher levels of mechanical performance. Oxygen barrier solutions are currently being studied.

THE GUARANTEE OF A BRAND

MATER-BI is part of a virtuous production system, undertaken entirely in Italy: a production chain involving everyone, from the farmer to the composter, from the converter to the retailer; and also creates new jobs.

Our packaging solutions contains a high level of innovation and research, involving six interconnected sites, investments and new jobs.
This is the 4th generation MATER-BI.

MATER-BI is certified as biodegradable and compostable. If disposed of in the wet waste fraction, it is converted into fertile, useful compost.
